Institution of Chemical Engineers

Organised by SCI's Separation Technology Group and
IChemE's Biochemical Engineering Subject Group

SCI
where science meets business

Separations for Biotechnology 2011

27 - 29 April 2011, Midland Hotel, Manchester, UK

Call for Papers

Separations for Biotechnology 2011 aims to bring together members of the international community involved in the design, development and scale-up of separations processes used in the manufacture of biologicals. There will be a mix of plenary lectures, oral and poster presentations, exhibition and a conference dinner. This conference is jointly organised by the SCI, IChemE, ESBS and BioProcess UK.

Symposia Themes

The purpose of this meeting is to bring together leading companies and academics to provide an insight into these areas of downstream processing and to report on new technologies for the manufacture of biologicals. The conference should benefit both experts and novices in downstream processing alike who are keen to consider all options available when considering new or improved downstream processes. The symposia themes will be:

- High throughput product development and analytics
- Advanced separations technologies
- Process integration
- Innovative process control
- Optimization of process economics
- Single use processing technologies
- Improved formulation technologies

Organising Committee

Peter Levison, Sharon Williams, Paula Jauregi, Andrew Lyddiatt, Owen Thomas, Nigel Slater, Mark Bustard

Call for Papers

Please submit A4 or letter abstracts to conferences@soci.org stating whether you prefer an oral or poster presentation along with the corresponding symposia theme.

Deadline for abstracts: Thursday 30 September 2010

Sponsorship & Exhibition

The Midland Hotel is an ideal conference venue. All refreshments, lunches, exhibition and posters are situated in a single area, thereby ensuring excellent access to delegates throughout the meeting. There are also a number of opportunities for sponsorship. Please contact jacqui.maguire@soci.org for further information and costs.

For further details and to register your interest, please contact:
SCI Conference Dept, 14/15 Belgrave Square, London, SW1X 8PS
